

Dynamic technology consultancy seeking outstanding engineers and physicists

Springboard creates and develops new technologies and devices that will shape the future. We specialise in products for regulated markets such as medical devices: it is a task in which only the very best succeed. We are seeking experienced engineering consultants to be part of our rapidly growing team.

Your opportunity for advancement

You will lead medical device projects for global leaders and drive growth in our company by creating your own business development opportunities. You will have world-class engineering / physics skill combined with an entrepreneurial spirit and be able to demonstrate the ability to command the respect of clients. You will be a capable leader of project teams, knowledgeable about managing risks and able to drive complex R&D programmes to success. Your experience will likely come from the technology consultancy sector.

We offer excellent career progression opportunities, operating with world-class strategies for medical device design and an exciting bonus package to reward successful achievement of ambitious company performance targets.

The Experienced Engineering Consultant role

- Leading R&D projects and delivering technical, regulatory and business progress to clients
- Pro-actively creating new business opportunities
- Writing proposals and negotiating contracts
- World-class capability in mechanical engineering or experimental physics including the ability to contribute to hands-on technical delivery

Requirements

- Demonstrable experience in leading projects, teams and technical developments
- A first or upper second in engineering or physics from a leading university
- An enthusiasm for innovation and the tenacity to succeed
- The ambition to learn and grow with a rapidly expanding company
- Eligibility to work in the UK. We are unable to sponsor work permits

How to apply

If you are set on a successful career and have what it takes to excel, please send a CV and covering letter explaining how you can help us achieve our ambitions via our website www.springboard.pro/careers. Please indicate your current salary.

Agencies: Springboard does **not** accept candidates from recruitment agencies. Please do not contact us about recruitment.
