

### **Dynamic technology consultancy seeking enthusiastic engineers and scientists**

Springboard is a technical consultancy which develops technologies for multinational companies in a diverse range of markets including medical, fluidics and advanced consumer products. We are seeking a diligent client-facing materials scientist with a passion for learning to be part of our rapidly growing team.

### **Your opportunity for advancement**

This role is for those who have completed a postgraduate degree or have worked for a company in a project environment. Working collaboratively within project teams and coached by experienced staff, you would build relationships with senior business leaders at our client companies, interpreting the business needs and creating solutions to important technical development programmes. This role has the potential for rapid career progression in leadership, commercial, management, or technical expert roles.

Springboard believes in improving people's lives and being a good employer. We support the career development of staff through mentoring and personal training budgets. We have an ethical policy to ensure that our work is satisfying and there is opportunity to travel to clients and manufacturing companies. There is an exciting bonus package to reward hard work and the achievement of company performance targets.

### **The Materials Scientist role**

- Identifying the fundamental engineering-science behind a multitude of technical problems
- Carrying out experiments in our laboratory and analysing data to enhance understanding
- Broad materials knowledge such as mechanical properties, surface chemistry and polymers
- Presenting to clients in a way that clearly interprets the science for their needs
- Opportunities to lead projects, manage people and generate new business

### **Requirements**

- Able to investigate a problem and develop a practical solution which benefits people
- Good at contributing to a team and communicating your work to clients and colleagues
- A first or 2:1 in science from a leading university (UK top 10 or equivalent) and A-levels minimum AAB or equivalent including maths and physics
- A PhD or equivalent additional science experience
- Eligibility to work in the UK. We are unable to sponsor work permits

### **How to apply**

If you want to use practical engineering and science to make the world a better place, please send a CV and covering letter explaining how you can contribute to our team via [www.springboard.pro/careers](http://www.springboard.pro/careers).

**Agencies:** Springboard does not accept candidates from recruitment agencies. Please do not contact us about recruitment.
